İGEF '24

Homeland Security Equipment Exhibition

İGEF 2024 is an exhibition and conference event that will bring together all types of security technologies and equipment and related branches of the defence industry on an international platform, bringing together the public and private sectors under one roof.

İGEF 2024 is organised under the auspices of the Ministry of Interior with the support of the Turkish Police Force Strengthening Foundation (TPTGV) and the Weapons Industry, Explosives and Businessmen's Association (SİSİAD).

It is a platform where senior police officers from abroad, relevant bureaucrats and security equipment suppliers discuss important issues related to internal security, and where new products, services and latest technologies are introduced and exhibited.

It is a promotional organisation that will enable the security sector to open to foreign markets by creating an international cooperation network on internal security issues.

IGEF'24

Homeland Security Equipment Exhibition

OUR MISSION

IGEF 2024 aims to contribute to the economic and security cooperation that has developed in recent years in the countries of the Middle East, North Africa, the Balkans, the Black Sea countries, the Turkic republics and countries with which we have close physical, cultural and historical ties.

www.igef.com.tr

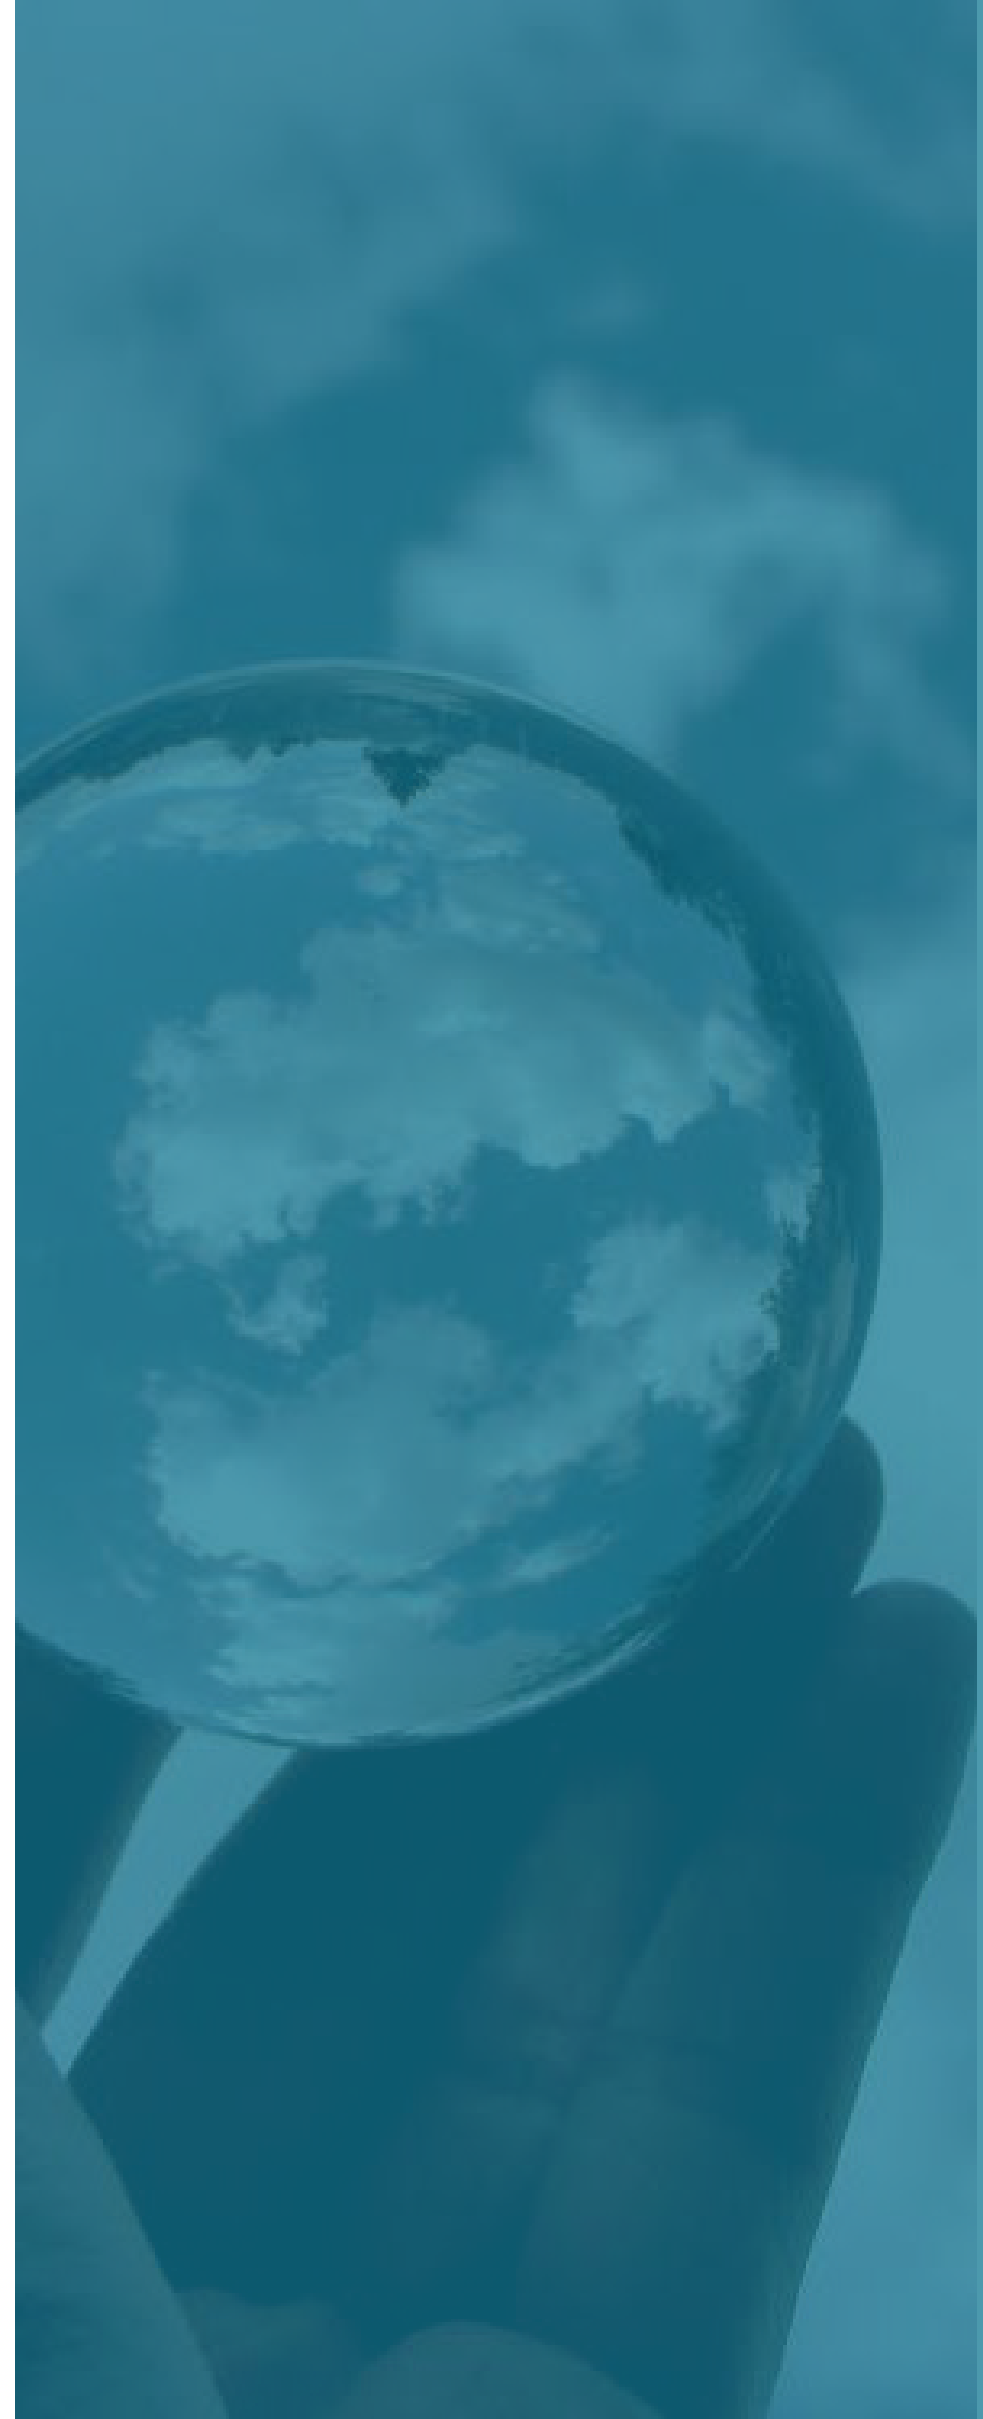

OUR VISION

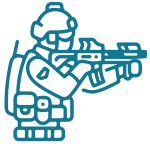

Firstly, to ensure that companies' products and services are introduced in the target countries.

To provide international information exchange, promotion and marketing.

To bring the public and private sectors together in a common place.

To support new technologies and innovation.

PARTICIPANT PROFILE

SOME OF THE PRODUCTS AND SERVICES TO BE EXHIBITED

IGEF'24
Homeland Security Equipment Exhibition

The exhibition will enable participating companies to promote their products and services. Companies will have the opportunity to showcase their products and services to many foreign officials and company representatives who may be potential customers, while reaching a wider audience through sectoral media organisations.

They will be able to meet with companies in the supply chain of the relevant sectors and will have the opportunity to establish new business relationships.

ACTIVITIES WITHIN THE ORGANISATION

The event will take place from 19 to 21 September 2024 at the ATO Congressium Congress and Exhibition Centre and will consist of a conference program, panel discussions, seminar sessions on specific topics to be coordinated and an exhibition where participating companies can display their products.

Organisation of the event

It will consist of result-oriented sessions that will evaluate the relations and needs of Türkiye and other countries on the axis of internal and external security, discuss the latest technologies in the sector, manufacturers' problems, risks and opportunities in international markets.

Experts, keynote speakers and senior executives from Türkiye and guest countries, as well as officials from many domestic and foreign private companies and public institutions and organisations will be present as speakers and listeners in the conference sessions.

The conference will cover topics such as developments in the fields of security, intelligence, defence, informatics and communications, opportunities for cooperation and presentations of technologies, equipment and technical facilities in these fields.
